Payments, Deliveries

- (1) *Rounding*: The amounts payable under these Terms and Conditions shall be rounded up or down to the smallest unit of the Specified Currency, with 0.5 of such unit being rounded upwards.
- (2) *Business day convention*: If the due date for any payment under the Securities (the "**Payment Date**") is not a Banking Day then the Security Holders shall not be entitled to payment until the next following Banking Day. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.
- (3) *Manner of payment, discharge*: All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such a payment.
- (4) *Interest of default*: If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the default interest rate established by law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).
- (5) *Delivery*: The Delivery of the Underlying and the payment of a Supplemental Cash Amount shall be made within five Banking Days after the Final Payment Date (the "**Delivery Period**") to the Clearing System for credit to the accounts of the relevant depository banks of the Security Holders. All costs, incl. possible custody fees, exchange turnover taxes, stamp taxes, transaction fees, other taxes or levies (together the "**Delivery Costs**"), incurred as a result of the delivery of the Underlying, shall be borne by the respective Security Holder. Subject to the provisions of these Terms and Conditions, the Underlying shall be delivered at the Security Holder's own risk. If the Final Payment Date of a delivery or payment is not a Banking Day, such delivery or payment shall be made on the next following Banking Day. Such delay will not constitute any entitlement to interest or other payments. The Issuer shall not be obliged to forward to the Security Holders any notifications or documents of the issuer of the Underlying that were provided to the Issuer prior to such delivery of the Underlying, even if such notifications or other documents refer to events that occurred after delivery of the Underlying. During the Delivery Period the Issuer shall not be obliged to exercise any rights under the Underlying. The Issuer shall be entitled to claim in an Underlying that exist prior to or on the Final Payment Date, provided that the day, on which the Underlying is traded for the first time on the Relevant Exchange "ex" of such claim, falls on or prior to such Final Payment Date.
- (6) *Transaction Disturbance*: If, as determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB), an event outside of the Issuer's control, which results in the Issuer not being able to deliver the Underlying pursuant to the Terms and Conditions of these Securities (a "**Transaction Disturbance**") and this Transaction Disturbance has occurred prior to delivery of the Underlying and continues to exist on the Final Payment Date, then the first day of the Delivery Period shall be postponed to the next Banking Day, on which no Transaction Disturbance exists. The Security Holders shall be notified accordingly pursuant to § 6 of the General Conditions. The Security Holders shall not be entitled to interest payment or other amounts, if a delay in the delivery of the Underlying occurs in accordance with this paragraph. The Issuer shall not be liable in this respect. In the event of a Transaction Disturbance, the Securities may, in its reasonable discretion (§ 315 et seq. BGB) of the Issuer and the Calculation Agent be redeemed at the Cash Value of the Redemption Price. The "**Cash Value of the Redemption Price**" is an amount determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB) on the basis of the stock exchange or market price of the Underlying on the Final Observation Date or, should such stock exchange or market prices not be available, the volume weighted average of the stock exchange or market prices in a representative period or, should such volume weighted average not be available, an amount determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB).

§ 7

Market Disruptions

- (1) *Postponement:* Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on an Observation Date, the respective Observation Date will be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists.

Any Payment Date relating to such Observation Date shall be postponed if applicable. Interest shall not be payable due to such postponement.

- (2) *Discretionary valuation:* Should the Market Disruption Event continue for more than 8 consecutive Banking Days the Calculation Agent shall determine in its reasonable discretion (§ 315 et seq. BGB) the respective Reference Price required for the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. Such Reference Price shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Munich local time) on this 9th Banking Day, taking into account the financial position of the Security Holders.

If within these 8 Banking Days traded Derivatives of the Underlying expire and are settled on the Determining Futures Exchange, the settlement price established by the Determining Futures Exchange for the there traded Derivatives will be taken into account in order to conduct the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. In that case, the expiration date for those Derivatives is the respective Observation Date.

§ 8

Adjustments, Replacement Specification

- (1) *Adjustments:* Upon the occurrence of an Adjustment Event the Terms and Conditions of these Securities (in particular the Underlying, the Ratio and/or all prices of the Underlying, which have been specified by the Calculation Agent) and/or all prices of the Underlying determined by the Calculation Agent on the basis of the Terms and Conditions of these Securities shall be adjusted in such a way that the financial position of the Security Holders remains unchanged to the greatest extent possible; such adjustments shall be made by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB). Any such adjustment will be performed taking into consideration any adjustments made by the Determining Futures Exchange to the there traded Derivatives linked to the Underlying, and the remaining term of the Securities as well as the latest available price of the Underlying. If the Calculation Agent determines that, pursuant to the rules of the Determining Futures Exchange, no adjustments were made to the Derivatives linked to the Underlying, the Terms and Conditions of these Securities shall regularly remain unchanged. The exercised adjustments and the date of the first application shall be notified pursuant to § 6 of the General Conditions.
- (2) *Replacement Specification:* If a price of the Underlying published by the Relevant Exchange pursuant to the Terms and Conditions of these Securities will subsequently be corrected and the correction (the "**Corrected Value**") is published by the Relevant Exchange after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify and publish the respective value by using the Corrected Value (the "**Replacement Specification**") pursuant to § 6 of the General Conditions.

(3) The application of §§ 313, 314 BGB remains reserved.

Had the aforementioned article not been applied, the leverage ratio of HVB Group as at 31 December 2020 would amount to 4.4% (in accordance with approved consolidated financial statements).

What are the key risks that are specific to the Issuer?

Risks related to the Issuer's financial situation: Risk that HVB Group will not be able to meet its payment obligations on time or in full or to obtain sufficient liquidity when required as well as that liquidity will only be available at higher interest rates, and the risk that the bank will only be able to liquidate assets on the market at a discount could create liquidity problems for HVB Group and thus could result in a limited ability to fund its activities and meet its minimum liquidity requirements.

Risks related to the Issuer's specific business activities: Risks arising from the normal business activities of HVB Group, which involve credit risk in the lending business, market risk in the trading business as well as risks from other business activities such as the real estate business activities of HVB Group could have an adverse impact on HVB Group's operating results, its assets and its financial situation.

General risks related to the Issuer's business operations: Risks from inadequate or failed internal processes, systems and people or from external events, risks caused by adverse reactions of stakeholders due to their altered perception of the bank, risks from unexpected adverse changes in the future earnings of the bank as well as risks from concentrations of risk and/or earnings positions could result in financial losses, a downgrade of the bank's rating and an increase in the business risk of the HVB Group.

Legal and regulatory risk: Changes of the regulatory and statutory environment of HVB could result in higher capital costs and a rise of costs for the implementation of regulatory requirements. In cases of non-compliance with regulatory requirements, (tax) laws, regulations, statutory provisions, agreements, mandatory practices and ethical standards, the public perception of HVB Group as well as its earnings and financial situation could be negatively affected.

Strategic and macroeconomic risk: Risks resulting from management either not recognising early enough or not correctly assessing significant developments or trends in the bank's environment and risks arising from negative economic developments in Germany and on the international financial and capital markets could have a negative effect on the assets, liabilities, financial position and profit or loss of HVB Group. It can be expected that the global spread of the coronavirus will weigh on global economic growth in the first half of the year. It is also possible that the burden will last longer depending on how the pandemic progresses.

Product Type, Underlying and form of the Securities

An Early Redemption Event means that the Reference Price on the respective Observation Date (k) is equal to or greater than the Early Redemption Level (k).

Early Redemption Level (k) means the product of the Early Redemption Factor (k) and the Initial Reference Price.

Redemption as at the Final Payment Date

If the Securities are not redeemed early, the Securities will be redeemed on the Final Payment Date as follows:

- (A) A Barrier Event has not occurred. The Security Holder receives the Redemption Amount in the Specified Currency which is equal to the Maximum Amount.
- (B) A Barrier Event has occurred and the Final Reference Price is equal to or greater than the Strike. The Security Holder receives the Redemption Amount in the Specified Currency which is equal to the Nominal Amount.
- (C) A Barrier Event has occurred and the Final Reference Price is lower than the Strike. The Security Holder receives delivery of the Underlying in a quantity expressed by the Ratio per Security. If the Ratio leads to a fraction of the Underlying, a cash amount expressed in the Specified Currency is paid instead.

Additional definitions and product terms

Barrier means the product of the Barrier Level and the Initial Reference Price.

Barrier Event means that the Final Reference Price is lower than the Barrier.

Final Reference Price means the Reference Price of the Underlying determined on the Final Observation Date.

Initial Reference Price means the Reference Price of the Underlying determined on the Initial Observation Date.

Ratio means the quotient of the Nominal Amount divided by the Strike.

Strike means the product of the Strike Level and the Initial Reference Price.

Reference Price	Barrier Level	Strike Level	Maximum Amount	Initial Observation Date	Final Observation Date	Final Payment Date
Closing price	70%	100%	USD 1,295.00	28.10.2021	26.10.2026	02.11.2026

Extraordinary termination right: The Issuer has the right to extraordinary terminate the Securities at the fair market value of the Securities upon the occurrence of certain Call Events (for example, if price quotation of the Underlying on the relevant exchange is finally ceased).

Adjustment right: The Terms and Conditions of the Securities may be adjusted by the Calculation Agent if an Adjustment Event occurs (for example, the company that issued the Underlying performs a corporate action).

Status of the Securities: The obligations under the Securities constitute direct and unsecured obligations of the Issuer and rank *pari passu* with all other unsecured and unsubordinated obligations of the Issuer. In the case of a resolution (bail-in), the Securities will, within the liability cascade, be considered only after all non-preferred liabilities of the Issuer.

Where will the Securities be traded?

No application for the Securities to be admitted to trading has been made and no such application is intended.

What are the key risks that are specific to the Securities?

The specific risk factors related to the Securities, which in the view of the Issuer are material, are described below:

Risk related to the rank and characteristic of the Securities in the case of a failure of the Issuer: The Security Holders bear the risk of the insolvency of the Issuer. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail.

Specific Risks related to the payment profile of the Securities: There is the particular risk that the price of the Underlying falls and consequently the Security Holder will suffer a significant loss of his invested capital. A total loss is possible. Falling

prices of the Underlying will have a negative impact on the Security Holder, especially if a Barrier Event occurs.

Risks relating to Securities with physical delivery: The risk of price losses of the Underlying does not end with its delivery but only with its sale by the Security Holder. There is no automatic sale of the delivered quantity of the Underlying.

Risks arising from the Terms and Conditions of the Securities: The Security Holders bear a risk of loss if the Securities are terminated by the Issuer. The Securities will then be redeemed at their fair market value of the Securities. This may be lower than the amount that the Security Holder would have received if there had been no extraordinary termination of the Securities. In addition, Security Holders bear a reinvestment risk. Moreover, the Security Holders bear a risk of loss if an adjustment of the Terms and Conditions is made or if a market disruption occurs.

Risks related to the investment in, the holding and selling of the Securities: The Security Holders bear the risk that the market price of the Securities may be subject to severe fluctuations during the term of Securities and that the Security Holder is not able to purchase or to sell the Securities at a specific time or for a specific price.

Risks related to Shares as Underlying: The Securities are associated with similar risks for the Security Holders as in case of a direct investment in the shares specified as Underlying. The price of a share can fall sharply or it can become worthless, e.g. due to the insolvency of the issuer of the share.

Slučajevi nepoštivanja regulatornih zahtjeva, (poreznih) zakona, propisa, zakonskih odredbi, sporazuma, obvezujuće prakse i etičkih standarda, mogli bi negativno utjecati na percepciju javnosti o HVB Grupi, kao i na njezinu zaradu i financijsku situaciju.
