**2 TERMS AND CONDITIONS OF THE SECURITIES - CONDITION 3 "DEFINITIONS"**

2.1 *The definition of "Annual Management Fee or AMF" within the Condition 3 (Definition) of the Section "TERMS AND CONDITIONS OF THE SECURITIES", at pages 66 and 67 of the Base Prospectus shall be deleted in its entirety and replaced by the following:*

**Annual Management Fee or AMF**, means, if applied by the Issuer in relation to Benchmark Certificates, a fee charged to the investor at the particular time "t" which, irrespective of the performance of the Underlying, will accrue gradually and proportionally to the tenor of the Certificates and will be determined according to the formula set out below.

The Calculation Agent will deduct the accrued AMF from the Cash Settlement Amount pursuant to Condition 24 (*Pay-out provisions*). If the Certificates are listed or admitted to trading, their price for trading purposes will include the AMF gradually accrued on each Exchange Business Day.

In particular, the AMF will be determined on the basis of the AMF Percentage. The AMF will be calculated as follows:

$$AMF_t = \prod_{x \in (t_0, t_0+1, \dots, t)} \left( 100\% - \frac{AMF\ Percentage}{365.25} \right)$$

Where:

"x" means each calendar day from t<sub>0</sub> to t;

"t" can be any calendar day before the Valuation Date or the Valuation Date;

"**AMF Percentage**" means, in relation to the calculation of the Annual Management Fee, the value expressed as a percentage indicated in the applicable Final Terms;

2.2 *The definition of "Variable Management Fee or VMF" within the Condition 3 (Definition) of the Section "TERMS AND CONDITIONS OF THE SECURITIES", at pages 117 and 118 of the Base Prospectus shall be deleted in its entirety and replaced by the following:*

**Variable Management Fee or VMF** means, if applied by the Issuer in relation to Benchmark Certificates, a fee charged to the investor at the particular time "t" determined on the basis of the AMF Percentage and of the VMF Percentage<sub>x</sub>.

The Calculation Agent will deduct the VMF accrued from the Cash Settlement Amount pursuant to Condition 24 (*Pay-out provisions*).

The VMF will be calculated as follows:

$$VMF_t = \prod_{x \in (t_0, t_0+1, \dots, t)} \left( 100\% - \frac{AMF\ Percentage}{365.25} - \frac{VMF\ Percentage_x}{365.25} \right)$$

Where:

"x" means each calendar day from t<sub>0</sub> to t;

"t" can be any calendar day before the Valuation Date or the Valuation Date;

"**VMF Percentage<sub>x</sub>**" means the percentage identified from time to time by the Calculation Agent within a

range specified in the applicable Final Terms, considering that:

- at  $x = t_0$  (i.e. at the Issue Date), the VMF Percentage <sub>$t_0$</sub>  is equal to 0;
- at  $x = t_1$  (i.e. the first calendar day following the Issue Date) the VMF Percentage <sub>$t_1$</sub>  is equal to the percentage indicated in the applicable Final Terms;
- thereafter, the VMF Percentage <sub>$x$</sub>  remains constant on each calendar day " $x$ " until new communication. It shall be determined by the Calculation Agent so as to not exceed the percentage indicated in the applicable Final Terms. The Calculation Agent may update the VMF Percentage <sub>$x$</sub>  at its reasonable discretion, within the range indicated in the applicable Final Terms, considering the prevailing market conditions. The variations of the VMF Percentage <sub>$x$</sub>  will be notified to the relevant exchange where the Certificates are listed/traded and published on the website of the Issuer;
