Profit forecast

The Form 6-K Dated 2 November 2022 contains a profit forecast relating to an expected net loss for the Group in the fourth quarter of 2022. This profit forecast has been compiled and prepared on a basis which is both comparable with historical financial information and consistent with CS's accounting policies.

Strategy announcement

On 27 October 2022 CSG and CS announced certain strategic actions following a comprehensive strategic review by the Boards of Directors and the Executive Boards of CSG and CS. The strategy of CSi will align with the strategy of CSG and CS. Please see the Third Form 6-K Dated 27 October 2022 for more detail, including the updated Risk Factors of the Group.

Amendments to the section titled “General Information—2. Ratings” in the Registration Document

On 1 November 2022, S&P Global Ratings Europe Limited downgraded the issuer credit rating of the Issuer from A to A-.

On 1 November 2022, Moody's Investors Service Ltd downgraded the long-term senior unsecured debt rating of the Issuer from A2 to A3.

The first six paragraphs of the section headed “General Information—2. Ratings” on pages 28 to 29 of the Registration Document are hereby amended and restated as follows:

The credit ratings of the Issuer referred to in this Registration Document have been issued by S&P Global Ratings Europe Limited (“**S&P**”), Fitch Ratings Limited (“**Fitch**”) and Moody's Investors Service Ltd. (“**Moody's**”).

The Issuer has an issuer credit rating of “A-” from S&P, a long-term issuer default rating of “BBB+” from Fitch and an issuer credit rating of “A3” from Moody's.

Explanation of ratings as of the date of this Registration Document:

“A-” by S&P: An obligor rated “A” has strong capacity to meet its financial commitments but is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligors in higher-rated categories. The addition of a plus or minus sign shows the relative standing within the rating category. (source: www.standardandpoors.com)

“BBB+” by Fitch: “BBB” ratings indicate that expectations of default risk are currently low. The capacity for payment of financial commitments is considered adequate, but adverse business or economic conditions are more likely to impair this capacity. The modifier “+” indicates relative differences of probability of default or recovery for issues. (source: www.fitchratings.com)

“A3” by Moody’s: Obligations rated “A” by Moody’s are judged to be upper-medium grade and are subject to low credit risk. The modifier “3” indicates that the obligation ranks in the lower end of that generic rating category. (source: www.moodys.com)

Amendments to the section titled “General Information—5. Change” in the Registration Document

General

For the purposes of Art. 23(5) of the Regulation (EU) 2017/1129, this Third Supplement forms a constituent part of, and supplements and amends, the prospectuses listed in Schedule 1 hereto.

This Third Supplement and the documents incorporated by reference into the Registration Document by this Third Supplement have been filed with the CSSF, and copies of the Registration Document, the First Supplement, the Second Supplement and this Third Supplement and the documents incorporated by reference into the Registration Document (as supplemented by the First Supplement, the Second Supplement and this Third Supplement) will be available, free of charge, on the website of the Luxembourg Stock Exchange at www.bourse.lu and on the Issuer's website at: <https://www.credit-suisse.com/be/en/investment-banking/financial-regulatory/international.html>.

Except for the copies of the documents incorporated by reference into the Registration Document (as supplemented by the First Supplement, the Second Supplement and this Third Supplement) that are available on the Luxembourg Stock Exchange website (www.bourse.lu) or the Issuer's website, no information contained on the websites to which links have been provided is incorporated by reference in the Registration Document.

Save as disclosed in the First Supplement, the Second Supplement and this Third Supplement, no other significant new factor, material mistake or inaccuracy relating to information included in the Registration Document has arisen or been noted, as the case may be, since the publication of the Registration Document.

In accordance with Article 23(2a) of Regulation (EU) 2017/1129, investors who have already agreed to purchase or subscribe for securities pursuant to the prospectuses listed in Schedule 1 hereto before this Third Supplement is published have the right, exercisable within three working days after the publication of this Third Supplement, to withdraw their acceptances, provided that the significant new factor, material mistake or material inaccuracy referred to in Article 23(1) of Regulation (EU) 2017/1129 arose or was noted before the closing of the offer period or the delivery of the securities, whichever occurs first. In connection therewith, investors should contact the Distributor (as defined in the relevant prospectus) of such securities. The final date of the right of withdrawal will be 24 November 2022.

Responsibility Statement

The Issuer takes responsibility for the Registration Document, as supplemented by the First Supplement, the Second Supplement and this Third Supplement. Having taken all reasonable care to ensure that such is the case, the information contained in the Registration Document, as supplemented by the First Supplement, the Second Supplement and this Third Supplement, is, to the best knowledge of the Issuer, in accordance with the facts and contains no omission likely to affect its import.

This Third Supplement is not for use in, and may not be delivered to or inside, the United States.

What are the key risks that are specific to the Issuer?

The Issuer is subject to the following key risks:

1. Liquidity risk arising from potential inability to borrow or access the capital markets on suitably favourable terms or to sell its assets. This may also arise from increased liquidity costs.
2. Risks arising from the suspension and ongoing liquidation of certain supply chain finance funds and the failure of a US-based hedge fund to meet its margin commitments (and the Issuer's exit from its positions relating thereto), in respect of which a number of regulatory and other inquiries, investigations and actions have been initiated or are being considered. In addition, the Issuer may suffer significant losses from its credit exposures, which exist across a wide range of transactions and counterparties and may be exacerbated by adverse market conditions (including the impact of COVID-19), increased volatility in certain markets or instruments or disruption in the liquidity or transparency of financial markets. In addition, disruptions in the liquidity or transparency of the financial markets may result in the Issuer's inability to sell, syndicate or realise the value of its positions, thereby leading to increased concentrations. Any inability to reduce these positions may not only increase the market and credit risks associated with such positions, but also increase the level of risk-weighted assets on the Issuer's balance sheet, thereby increasing its capital requirements, all of which could adversely affect its businesses. Default or concerns of default by one or more large financial institutions could negatively impact the Issuer's business and the financial market generally, and the Issuer's credit risk exposure will increase if the collateral it holds cannot be realised at prices sufficient to cover the full amount of the exposure.
3. Market fluctuations, volatility relating to the Issuer's trading and investment activities (against which its hedging strategies may not prove effective), uncertainties regarding the possible discontinuation of benchmark rates and adverse economic conditions may impact the Issuer's financial condition and results of operations. The spread of COVID-19 and resulting tight government controls and containment measures implemented around the world have caused severe disruption to global supply chains, labour markets and economic activity, which have contributed to rising inflationary pressure and a spike in market volatility. The spread of COVID-19 is currently having an adverse impact on the global economy, the severity and duration of which is difficult to predict. The COVID-19 pandemic has significantly impacted, and may continue to adversely affect, Credit Suisse Group AG's credit loss estimates, mark-to-market losses, trading revenues and net interest income, as well as Credit Suisse Group AG's ability to successfully realise its strategic objectives and goals. To the extent the COVID-19 pandemic continues to adversely affect the global economy, and/or adversely affects the Issuer's business, operations or financial performance, it may also have the effect of increasing the likelihood and/or magnitude of other risks described herein, or may pose other risks which are not presently known to the Issuer or not currently expected to be significant to its business, operations or financial performance. The Issuer is closely monitoring the potential adverse effects and impact on its operations, businesses and financial performance, including liquidity and capital usage, though

the extent of the impact is difficult to fully predict at this time due to the continuing evolution of this uncertain situation. The Issuer's financial position and cash flows are exposed to foreign currency exchange fluctuations, and this and other market risks could exacerbate other risks to which the Issuer is exposed.

4. The Issuer is exposed to risks from adverse market conditions and unfavourable economic, monetary, political, legal, regulatory and other developments in the countries in which it operates (as well as countries in which the Issuer does not currently conduct business), including the escalating conflict between Russia and Ukraine, as a result of which the United States, European Union, United Kingdom and other countries have imposed, and may further impose, financial and economic sanctions and export controls targeting certain Russian entities and/or individuals (such that the Issuer may face restrictions (including any Russian countermeasures) on engaging with certain consumer and/or institutional businesses), and which could lead to regional and/or global instability, as well as adversely affect commodity and other financial markets or economic conditions. An element of the strategy of Credit Suisse Group AG and its consolidated subsidiaries is to increase its wealth management businesses in emerging market countries. The Issuer's implementation of this strategy will increase its exposure to economic instability in those countries, which could result in significant losses.
5. The Issuer's existing risk management procedures and policies may not always be effective, particularly in highly volatile markets, and may not be fully effective in mitigating its risk exposure in all economic market environments or against all types of risk, including risks that the Issuer fails to identify, anticipate or mitigate, in whole or in part, which may result in unexpected, material losses. Moreover, the Issuer's actual results may differ materially from its estimates and valuations, which are based on judgement and available information and rely on predictive models and processes. The same is true of the Issuer's accounting treatment of off-balance sheet entities, including special purpose entities, which requires it to exercise significant management judgement in applying accounting standards; these standards (and their interpretation) have changed and may continue to change. In addition, the Issuer's business may be disrupted by technology-related failures such as service outages or information security incidents, and the Issuer could be compromised by cyber incidents. Cybersecurity risks have also significantly increased in recent years in part due to the growing number and increasingly sophisticated activities of malicious cyber actors. In addition, the Issuer may be subject to increasing risks arising from increased litigation and other liability from the growing volume of nascent climate and sustainability-related regulation.
6. The Issuer's exposure to legal risks is significant and difficult to predict and the volume and amount of damages claimed in litigation, regulatory proceedings and other adversarial proceedings against financial services firms continues to increase in many of the principal markets in which the Issuer operates. The Issuer's business is highly regulated, and existing, new or changed laws, rules and regulations may continue to increase costs (including costs related to compliance, systems and operations) and may continue to negatively affect the Issuer's ability to conduct certain types of business which could adversely affect the Issuer's profitability and competitive position. If the Issuer fails to manage these risks effectively, this could lead to a decrease in the value of its securities. Regulations applicable to the Issuer (as well as regulations and changes in enforcement practices applicable to its clients) may adversely affect its business and ability to execute its strategic plans. In addition, the applicable resolution and bail-in legislation (including the Banking Act 2009) may affect the Issuer's security holders, who would have very limited rights to challenge the exercise of the bail-in tool, any resolution power or any pre-resolution measure.
7. The Issuer is exposed to the risk that improper behaviour or judgement, misconduct, or non-compliance with policies or regulations by the Issuer's employees results in negative financial, non-financial or reputational impacts on its clients, employees, the Issuer and the financial markets. In addition, the Issuer's position in the highly competitive financial services industry could be harmed by damage to its reputation arising from the factors mentioned above or failures of the Issuer's procedures and controls.
